## **CALL FOR ABSTRACTS**

### **Invitation**

The Conference Chair, International Scientific Committee and Scientific Advisory Board cordially invite you to communicate your recent research, share your expertise or strengthen your business at RESRB.

### **Scope**

The **Renewable Energy Sources - Research and Business (RESRB)** conference is designed as a platform for reporting, discussing, improving and disseminating recent developments in renewable energy science, technology, business and policy. Participants from various organisations such as universities, institutes, NGOs, associations, industries etc. are invited.

### **Themes**

The **5<sup>th</sup> RESRB 2020** conference focuses on five key renewable energy areas: (1) bioenergy, (2) wind, (3) solar, (4) hydro and their (5) business development.

The special theme for the 5<sup>th</sup> RESRB 2020 is:

- Innovation Driven Renewable Energy Development

Other main themes are:

- Renewable Energy Harvesting Technologies
- Renewable Energy Economics, Business, Policy and Management
- Innovation in Renewable Energy Projects
- Renewable Hydrogen for Mobility and Household Applications

### **Organising Committee**

Wojciech Budzianowski - Co-Chair

Patrick Hendrick - Co-Chair

Witold Surmanek

Julia Peterson
